

Plant **ME** trees

A learning tool your kids will really dig.

WESTERN MAINE NURSERIES

Conifers & Woody Ornamentals

SINCE 1923

Make PlantME seedlings part of a hands-on spring lesson for only 20¢ per tree.

After a bitterly-cold winter, wouldn't it be nice to have an academic reason to hold class outside this spring? PlantME™ trees are the root of a down-to-earth lesson on Maine ecology and culture—one that will provide a fun, hands-on learning experience for your students.

Satisfy Maine Learning Results requirements.

PlantME trees can also be the starting point for satisfying certain requirements of the Maine Learning Results (MLR) initiative. From *Classifying Life Forms to Ecology to Implications of Science and Technology*, there are many ways to integrate tree planting into an MLR-focused curriculum.

Order by April 1. Be digging by mid-May.

At only 20¢ each, PlantME White Pine and Balsam Fir trees are extremely affordable. Students can even order extras for home landscaping. Just order by April 1st (*orders pooled by School District preferred*) and you'll have trees in hand for your outdoor lesson by mid-May.

To order, or for more information, just call

Western Maine Nurseries toll-free at 800.447.4715.

Order must be in increments of 25 trees. Please refer to PlantME program when ordering.
